Site Improvement Plan 2017

Our Vision

Working collaboratively to ensure that each student is prepared for our ever-changing world. Promoting the skills of Problem Solving, Innovation, Creativity, Critical Thinking, Collaboration, Imagination and Inquiry.

Our Targets

STEM - Future innovation will require STEM-related knowledge, problem-solving, critical and creative thinking skills and the ability to work collaboratively and solve emerging world problems and give students opportunities to apply learned skills and knowledge through Powerful Learning Pedagogies.

LITERACY - Using 21st century pedagogies to develop growth mindsets, executive functioning, critical and creative thinking.

NUMERACY - Using 21st century pedagogies to develop growth mindsets, executive functioning, critical and creative thinking.

ABORIGINAL STUDIES – Develop Kilkenny Primary Schools cultural competencies.

Priority Area 1 STEM – Future innovation will require STEM related knowledge, problem solving, critical and creative thinking skills and the ability to work collaboratively and solve emerging world problems. We aim to give students opportunities to apply learned skills and knowledge through Powerful Learning pedagogies.

| Action Strategies – Related to | Key Tasks – What needs to be | Decreased Miles Address 2 | The form Breeken? | 5 |
